***Examiner's Remark***

1. Applicant's amendment, filed on Sept. 24, 2007, has been received and entered into the file. The double patenting, 101, 102 and 103 rejections have been overcome in view of applicant's amendments/remarks and are hereby withdrawn. Claims 30-31 are new. Claim 1 is allowable because of the amendment.

2. The restriction requirement, as set forth in the Office action mailed on Feb. 20, 2007, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 4-6, 10, 12 and 25-27, directed to species II and III, are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Claims 1-7, 9-12, 14-19, 23-28, and 30-31 are pending.

***Examiner's Amendment***

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Scott Krieger on Oct. 17, 2007.

The examiner has canceled claims 30 and 31.

***Allowable Subject Matter***

4. Claims 1-7, 9-12, 14-19, and 23-28 are allowed. The following is an examiner's statement of reasons for allowance for claim 1-7, 9-12, 14-19, and 23-28. The prior art fails to teach the listed claims each of which specifically comprises the following listed feature(s) in combination with other limitations in the respective claims:

-- wherein said applying the correction parameters comprises varying the attenuation of a correction in response to pixel position wherein the attenuation is changed as the pixel position changes from a non-self-luminous region to a self-luminous region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
